

SPEAKMAN POST TO HAVE MEMORIAL

Committee Chosen To Compile List Of Men in Service

The first step towards a permanent war memorial for Narberth was taken by the Harold D. Speakman Post, American Legion, at its executive committee meeting last Tuesday night.

A committee was appointed by D. C. Miner, commander, to carry on work during coming months to compile an accurate record of Narberth men in service. Its personnel includes: William H. Durbin, chairman, 400 Anthony Rd.; Henry A. Frye, 115 Wynnedale Rd.; Burns Post, 544 Dudley Ave.; M. A. Mattoon, 10 Narbrook Park; and Charles Vigners, Jr., 114 Woodside Ave.

The committee will first set up a system for obtaining and compiling this record, contacting the families of men in the service for full information. With more than 500 now having been enlisted and inducted from the borough, this represents a considerable job in the preparation of an accurate, all-inclusive list.

The Legion has already earmarked certain bequests and monies for this purpose, which will enable its committee to start the task prior to the end of hostilities. The late Emma D. Speakman, mother of the boy for whom the Post was named, bequeathed a sum for this project, and proceeds from the sale of scrap and the cannon formerly on the monument site at Wynnewood Ave. and Windsor, were turned over to the Legion, by Narberth Borough Council for this same purpose.

W. H. Durbin, as secretary of Local Draft Board No. 3, is well fitted to head this work because of his long experience in Selective Service and knowledge of Narberth. (Continued on Page 2)

Tax Reducing Officials Seek Re-election

FRED C. PETERS

FOSTER C. HILLEGASS

Peters, Hillegass Renew Pledge of Economy As Platform For Re-election

Montgomery County's two Republican commissioners this week submitted their pay-as-you-go, tax-saving record to the public in asking re-election to office. They took on their positions as executive jobs and their business organization as Montgomery County, Inc., in which the County's 269,000 citizens are all stockholders. Budget-balancing economies, which lead to tax reductions, they see as a sure way of paying their stockholders dividends.

Montgomery County's two Republican tax reducing Commissioners have announced themselves as candidates for re-election on their pay-as-you-go platform.

They are Frederick C. Peters, Ardmore, and Foster C. Hillegass, Pennsburg, who, in a joint announcement to the public through the newspapers, declared:

"In submitting our candidacies to the voters of this great County, we desire to point to our record of performance based on the premise that government should be conducted along business lines. Its operation must be in accordance with budget-balancing economies accruing to the benefits of the 269,000 citizens whom we represent—the stockholders of this Montgomery County business.

"Since we placed the county government on a pay-as-you-go basis, we have reduced the county tax rate 50 percent which has resulted in a saving to the taxpayers of upwards of a million dollars. Montgomery County enjoys freedom from debt. Despite the lowering of tax income, the County government's services to the taxpayer have increased and we point to our County Aid road improvement program, the new \$250,000 hospital for the indigent at the County Home, and the development of county parks, as typical.

"In line with the outstanding patriotism of Montgomery's citizenry, we commissioners put forth a pioneering effort in setting up an active, functioning County Civilian Defense organization. We have contributed finances and manpower to develop this county to the point where Montgomery ranks third in Civilian Defense worker rollment, being outnumbered only by Philadelphia and Allegheny Counties. In the winning of this global war, history will record the contribution of Montgomery County's war industries, the number of whose workers must be a military secret now.

"In going before the voters, we pledge continuation of the type of administration Montgomery County's residents demand and appreciate—Sound, Economic, Pay-as-you-go County Government."

Defense Council Needs Rags, Paper

The Regional Office of the War Production Board advises that a shortage of wiping and other forms of rags is developing rapidly, and requests the Lower Merion Council of Defense to inaugurate a Rag Salvage Program. The collection of rags is to be simultaneous with the brown paper salvage, announced recently.

New wool imports from Australia and other countries have been reduced by lack of shipping facilities to such an extent that the Army issued an order recently authorizing the use of reprocessed woollens in the manufacture of Army overcoats and blankets.

It is for the purpose of relieving this situation that the public is being asked to salvage rags. All kinds of rags and rope are wanted: cotton, broadcloth, linen, rayon, silk, woollens, felts, mattresses, twine, hemp rope, etc. It is not necessary for the housewife to sort her rags, but it is recommended that they be washed. Sterilizing is done after the rag dealers classify the material.

Exhibitions of Incendiaries To Feature July Fourth

Headquarters were opened this week at Haverford and Forrest Aves. in order to coordinate the various details which are incidental to Narberth's all-day-and-evening observation of July Fourth on the Borough Playground.

Committee members are on hand to receive entries to the numerous contests which will hold forth and that American Legion Auxiliary will also have representatives there for the photographs which will comprise the Narberth Service Gallery which will be an important part of the patriotic program.

This week cards were mailed to all the families of local men and women who are in the Armed Forces requesting that the pictures should be delivered to the temporary office and it is expected that there will be a complete roster of servicemen, the first venture of its kind in America.

Mrs. Eberhardt Mueller, who heads the General Committee, announced this week the appointment of several additional committees, as follows:

Display of antiques—Miss Vera Bailey, Mrs. Burns C. Best and Mrs. Ernest Drew.

A shack will be destroyed in the process and the Narberth Deense Council will cooperate by bringing their fire-fighting methods to the rescue.

This exhibition will be accompanied by a running comment over the loud speaker which will give the audience an authentic account and replica of actual European experience.

The American Legion will provide a movie show of several war subjects, as well as some comedy relief. The evening part of the program will also include community singing under professional auspices. A printed program is being prepared and it is expected that the final details will be ready or publication in next week's Our Town.

Candidate For Council; Three to Be Elected

Robert M. Cameron, former editor of "Our Town," and now safety engineer for Montgomery County, announced his candidacy this week for the Narberth Borough Council. Three vacancies on the Council must be filled at the election this year.

Cameron has been a resident of Narberth Borough for 11 years and now lives at 105 S. Narberth Ave.

He issued the following statement:

"I am a candidate for the Narberth Borough Council on the Republican ticket because I am interested in local affairs, because I feel that it is both a duty and a privilege to serve the community in which one lives, and because I believe that I can make a worthwhile contribution to the operation

of the borough government.

ENTER TO LEARN—GO FORTH TO SERVE

The L. M. Athletic Association held its second meeting of the school year to elect officers for next year and to discuss new business. Following the reading of the minutes of the previous meeting, Mr. Mattis, football coach, made a suggestion that gold footballs be awarded to the team members if they beat Norristown and Radnor or if they win the Big Six Championship. In past years the gold footballs were awarded if the team beat Radnor and Norristown. After much discussion by the students and faculty it was decided to award the gold emblem on the grounds that Mr. Mattis has suggested. Nominations of students for the various officers were then taken. For president, the following were suggested: Dan Pearce, Dick Whiting, Don Palmer, Stan Peacock and Bob Craig. For secretary, Doris Grugan, Peggy Heebner, Penny Richards and Alisa Freeman; vice-president, Stew Young, Bill West and Charles Yardley. The assembly was dismissed by "Andy" Anderson, following an announcement pertaining to the program for the week.

Awarding of Spring Athletic letters were made during a special assembly on June 11. Miss Palmer made the presentations of letters to the members of the Girls' Swimming Team (names were not available), followed by Mr. Richard B. Sheetz, rifle team coach, who presented rifle awards to the following: George Bailey, Henry Frye, Jack Wiley, William Griffiths and Benjamin Weston. J. Richmond, D. Frazer, Chuck Betts, N. Conellmo, Miller Forte, and Pete O'Neill won the golf awards presented by "Big Jim" Davis.

Dr. Beach presented hand awards to 110 to be entitled to a hand award a student must have given at least two years of service and have attained an attendance record of 90 per cent or better: Henry Mochling, Bruce Beach, next year's band host; Frank Brown, Jack Green, Douglas Deakins, Anthony Pantoni, Ira Lonsome, Paul Love, Thomas Montgomery, Thomas Powell, Joseph Sedule.

Any changes or additions to it should be reported by mail to Mr. Durbin in order that the temporary roll may be as accurate as possible.

War-time shortages of critical materials prohibit the erection of an honor roll at the present time, but the necessary preliminary record work is to be begun shortly in order to lighten and hasten the task later.

OPTIMISTS HONOR CHAMPION BOWLERS

Club Team Won Five of Seven Possible League Prizes

Members of the club's bowling team were guests of honor at last week's meeting of the Optimist Club of Lower Merion and Haverford Townships, held at the Main Bar and Dining Room.

The team is captained by James Bell, Ardmore, and includes Robert Lockhard, Ardmore, Harold Lane, Brookline; Joseph Mussetti, Ardmore; Charles Winger, Ardmore; Craig Boyd, Cynwyd; Fred Glover, Ardmore, and Paul Mirabile, Ardmore.

Craig Boyd, who is president of the Optimists, presided at the meeting and introduced Vincent H. Gattone, president of the League, and a member of the Board of Governors of the Upper Darby Optimist Club.

Gattone pointed out that this is the first time in the League's ten years of existence that one team has won so many prizes in one season. He expressed the opinion that inter-club association and competition promote good fellowship and better understanding between the communities which the clubs represent.

Other guests were Walter Turner, of the Upper Darby Lions Club, who is secretary of the League, and William Heffner, of the Upper Darby Optimist Club.

RATION REMINDER

GASOLINE—"A" Book Coupons No. 6, good for four gallons each, outside the eastern gasoline shortage area. Within the east coast shortage area, "A" book coupons No. 5, good for three gallons each, must last through July 21. "B" and "C" coupons cut to 2 1/2 gallons in shortage area.

SUGAR—Coupon No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.

COFFEE—Stamp No. 24 is good for one pound through June 30.

FUEL OIL—Period 5 coupons valid in all zones until September 30.

SHOES—Stamp No. 18 became valid for one pair June 16.

MEATS, ETC.—Red Stamps J, K, L, M, good through June 30. N becomes valid June 20.

PROCESSED FOODS—Blue Stamps K, L, M, continue good through July 7.

LOWER MEAT PRICES

Effective June 21, meat prices at retail will be lowered from 3 cents to 7 cents a pound by order of the OPA. New prices for cured and processed pork will go into effect on July 5. Reductions in price are smaller on cheaper cuts and larger on the more expensive. As in the case of the rollback of prices on butter, the lowering of meat prices will not directly affect the farm producer. Subsidies, which begin June 7, will be paid to anyone who slaughters 4,000 pounds of meat or more per month.

COFFEE BY MAIL

Coffee drinkers who order their blends by mail may now "pay" for the purchase by enclosing detached ration stamps with the order rather than the entire ration book, OPA has announced. Formerly, consumers were required to forward their War Ration Book to the retailer or wholesaler for removal of stamps.

GAS COUPONS CHANGED

A new "TT" gasoline coupon, which replaces the present "T" coupon, will become valid for use on July 1. The old type of "T" coupon will be invalid on and after July 1, except in the northeastern shortage area where it will be used through July 25. OPA expects the change in design to help take up "slack" mileage and remove potential sources of black market gasoline.

"B" MILEAGE OUT

Maximum mileage of "B" gasoline ration books has been reduced to 300 miles per month in the northeast shortage area—and no additional mileage will be allowed under any circumstances unless the applicant is in a preferred occupation, for example, a doctor, ambulance driver, firefighter, or policeman.

WRITE TO MEN IN ICELAND

"American soldiers in Iceland are not getting nearly enough mail from home," said Captain Peter E. Cullom, Chaplain's Corps, who recently returned to the U. S. after two years of duty with Icelandic garrisons. "In spite of the fact that the army delivers the mail with promptness and regularity to every army post, folks at home are not taking full advantage of this service," Chaplain Cullom said.

REQUIREMENTS CHANGED

Tire inspections for commercial motor vehicles now may be made every 5,000 miles or every six months, whichever occurs first, ODT has announced. Previously, commercial vehicles had to have tire inspections every 5,000 miles or every 60 days, whichever occurred first.

DATA ON PRISONERS

American soldiers officially reported as prisoners of war in enemy countries to date total 17,083, the War Department has announced. Of these, 11,307 are held by Japan, 3,312 by Germany and 2,464 by Italy. War Department indicates that the basic diet of an American soldier in German prison camps is largely potatoes, cabbage, fish, and an indefinite amount of meat.

BROTHER SERGEANTS

Pictured above are Sergeants Louis and Tony Volpi, of 229 Hampden Ave., in Narberth. Louis is at Camp Atterbury in Indiana, and has been in service since October 22. Tony is in New Orleans, La., since November 21. By a strange coincidence, the brothers were made sergeants in the same week at their respective camps miles apart. Their mother has just received word of the brothers' promotion.

AUTOCAR RECEIVES FIRST AID AWARD

30 Men Complete Safety Course With Dr. Best

Mrs. Joseph N. Pew, chairman of the First Aid Division of the local Chapter of the American Red Cross, personally presented a "Volunteer First Aid Detachment" certificate to the Autocar Company and a class of 30 Autocar men at the factory, in Ardmore, Tuesday evening. This was the first award of the kind that has come to the western suburbs of Philadelphia, and one of the first in this entire area.

It means that there are now certified "first-aiders" in each department of the Autocar factory, prepared to meet any accidents that may arise in the natural course of manufacturing operations or because of a disaster caused by outside agencies. Already several of these men have been able to put their new training to use.

The Autocar First Aid Class has completed both the Standard and the Advanced courses by attending classes from 7:30 to 10 p. m., one night a week for 20 weeks. Their instruction began on March 11, 1942. The class was organized and directed by Capt. Carl Svenson, chief of the Autocar plant guards, and the instructor was Dr. Harry C. Best, of Chester Rd., Devon.

The certificate, which was formally presented by Mrs. Pew, has now been framed and hangs in Captain Svenson's office. It is issued over the names of President Roosevelt, as President of the American Red Cross, and Norman H. Davis, as chairman. It is countersigned by Harry I. Lauer, of Philadelphia, chairman of the Southeastern Pennsylvania Chapter.

ABOVE the HULLABALOO

By LITTLE HULL

It is about 200 miles from a little town called Carrabelle on the Northwestern Gulf Coast of Florida to Jacksonville on the Atlantic Coast. It is fairly level going all the way, no severe ups and downs, no heavy rock formations, no great rivers or flood areas. If engineers could lay the 24-inch pipe line, which we know as the "Big Inch," at a speed of five miles a pay over the sort of terrain which lies between Longview, Texas, and Norris City, Ill., they could certainly equal that speed from Carrabelle to Jacksonville.

There is a sheltered and easily protected waterway from the oil ports of Texas to Carrabelle, and, along the Atlantic seaboard, the Inland Waterway runs from southern Florida all the way to New Jersey. No submarines could reach oil shipments over this route. One 24-inch pipe line could transport 300,000 barrels daily. Two or three laid in the same ditch for economy's sake would eliminate East Coast gasoline and oil troubles.

Such a program would necessitate the construction of pipe lines and pumping stations, hundreds of small diesel powered tow boats and many hundreds of oil barges. These latter could be constructed of poured concrete reinforced with steel. The amount of steel used would be small and the labor far less than would be required for barges constructed of lumber.

At a time like the present when every effort is concentrated upon making the machinery for war, it might almost appear to be too expensive an undertaking to construct this "through line" from the Texas oil fields to New Jersey, but if we are to believe what we read and hear about the impending East Coast gasoline and oil shortage, this project—or one with the same object in view—is as important as the battlefield itself. For not only are East Coast war industries an essential part of the nationwide effort, but from the standpoints of health and morale, a really desperate situation in great centers of population like New England states, New York, Pennsylvania and New Jersey, caused by too great a shortage of these two essentials—would be catastrophe beyond words.

In about five months from now the Northern Atlantic states will begin to need oil and coal to keep the people warm. This will be added to the demand for gasoline to keep road transportation in motion. Even now the East is being "cut to the bone" in the use of gasoline—and nothing could be more sensible if the cutting doesn't go too far and cause a transportation breakdown. But is the East being forced to economize on gasoline so that fuel and heating oils can be shipped there through the summer and stored for the winter demand; or is all of it being shipped abroad for our war efforts? And even if great quantities are being stored—will that surplus be sufficient to tide the Northeastern states over another such winter as the past one? And if the oil just isn't available when the time comes—then what? People will walk, starve and die all sorts of deaths for their country's sake—but they won't freeze gracefully.

It is someone's job to get oil and gasoline to the East Coast by next winter; and it won't make any difference to freezing people what the reasons or excuses for failure may be. There are ways to forestall a serious shortage if action is begun in time.

There must not be a famine in oil or gasoline in the cold North Atlantic states this coming winter. The repercussions would be too unpleasant.

"Meet the People..."

(Each week in this space will be presented a picture and word portrait of someone whose name is news.)

"To elevate the working class"—that is the dominating motive in the life of Josef Stalin, Premier of Russia, leader of the first country to force the Nazis to feel the wounds of defeat.

He was born Josef Vissarionovich Dzugashvili, in Tiflis, Georgia, in Russia on December 21, 1879, the son of a cobbler. Nicolai Lenin later named him Stalin which means "steel man."

In his personal tastes Stalin has been described as puritanical. Once he severely reprimanded an editor whose publication contained something Stalin considered obscene. He often works 18 hours continuously, but believes in a six hour day for others.

This little man with the pipe and mustache has been an enigma to his contemporaries. Military authorities said his army would last three months against the Germans.

He has asked reporters not to refer to him as a dictator and once explained that "never under no conditions would our workers tolerate one-man rule. The biggest authorities among us become converted to zeros as soon as they lose the faith of the working masses."
